

Nexus for Advanced Resilient Energy (SC NEXUS)

History

July 2023:

- Convened core members of SC NEXUS consortium.

August 2023:

- Applied for designation as one of U.S. Department of Commerce's Economic Development Administration (EDA) 20 Regional Technology and Innovation Hubs.
- Selected technology focus as **Advanced Resilient Energy** - specifically grid resilience - and defined focused regions to cover more than 60% of SC's distressed counties.

October 2023:

- SC NEXUS selected as one of 31 Tech Hubs designated by EDA out of 200+ entities that submitted applications.
 - The Tech Hubs designation is forever.

February 2024:

- SC NEXUS submitted an application for EDA's Phase II Tech Hubs funding to leverage and accelerate existing efforts.
- The application included six component projects that showcase the breadth of innovation and collaboration within the consortium.

July 2024:

- Awarded \$45 million in federal funds for SC NEXUS projects.
